

(c) Each personal flotation device light required by this section must be securely attached to the front shoulder area of the immersion suit, life preserver, or other personal flotation device.

(d) If a personal flotation device light has a non-replaceable power source, the light must be replaced on or before the expiration date of the power source. If the light has a replaceable power source, the power source must be replaced on or before its expiration date and the light must be replaced when it is no longer serviceable.

[44 FR 38783, July 2, 1979, as amended by CGD 82-075a, 49 FR 4483, Feb. 7, 1984; CGD 97-057, 62 FR 51042, Sept. 30, 1997]

**§25.25-15 Retroreflective material for personal flotation devices.**

(a) Each life preserver, each marine buoyant device intended to be worn, and each buoyant vest carried on a vessel must have Type I retroreflective material that is approved under subpart 164.018 of this chapter.

(b) Each item required to have retroreflective material must have at least 200 sq. cm (31 sq. in.) of material attached to its front side, at least 200 sq. cm of material on its back side, and, if the item is reversible, at least 200 sq. cm of material on each of its reversible sides. The material attached on each side of the item must be divided equally between the upper quadrants of the side, and the material in each quadrant must be attached as closely as possible to the shoulder area of the item.

[CGD 76-028, 44 FR 38783, July 2, 1979, as amended by CGD 82-075a, 49 FR 4483, Feb. 7, 1984]

**Subpart 25.26—Emergency Position Indicating Radio Beacons (EPIRB)**

SOURCE: CGD 87-016a, 58 FR 13367, Mar. 10, 1993, unless otherwise noted.

**§25.26-1 Definitions.**

As used in this subpart:

*Berthing space* means a space that is intended to be used for sleeping and is provided with installed bunks and mattresses.

*EPIRB* means an Emergency Position Indicating Radiobeacon which is Type Accepted by the Federal Communications Commission under requirements in 47 CFR parts 2 and 80.

*Galley* means a space that provides for the preparation and extended storage of food. This does not include small alcohol or propane stoves with limited cooking capability, or ice chests or similar devices that are intended for keeping small quantities of food for short durations.

*High seas* means the waters beyond a line three nautical miles seaward of the Territorial Sea Baseline as defined in 33 CFR 2.05-10.

*Length* means the length listed on a vessel's Certificate of Documentation or Certificate of Number.

*Uninspected passenger vessel* means a vessel which, when used for commercial service, is used solely to carry passengers for hire or to provide non-emergency assistance to boaters (assistance towing), and which is not inspected by the Coast Guard under any other 46 CFR subchapter.

NOTE: As an example, a vessel on a voyage involving catching fish which are to be sold, is a commercial fishing industry vessel for the purposes of the EPIRB regulations in this section, even if there are passengers on board during the voyage.

**§25.26-5 Commercial fishing industry vessels.**

(a) The owner of a fishing vessel, a fish processing vessel, or a fish tender vessel, 11 meters (36 feet) or more in length, except for vessels described in paragraph (b) or (c) of this section, shall ensure that the vessel does not operate on the high seas or beyond three miles from the coastline of the Great Lakes unless it has on board a float-free, automatically activated Category 1 406 MHz EPIRB stowed in a manner so that it will float-free if the vessel sinks.

(b) The owner of a fishing vessel, fish processing vessel, or a fish tender vessel less than 11 meters (36 feet) in length, or 11 meters or more in length which has a builder's certification that the vessel is constructed with sufficient inherently buoyant material to keep the flooded vessel afloat, shall ensure that the vessel does not operate
